INNOVATION DELIVERED

Cross-sector | Global | Tailored | Sustainable

OPEN INNOVATION

FIS360 designed and has delivered the UK's leading nuclear open innovation programme, **Game Changers**, for Sellafield Ltd since 2016.

We design and deliver **tailored open innovation programmes** to help you solve your most complex challenges, connecting you with our extensive network of innovators to transform ideas into impactful technologies.

FEATURES

Tailor your programme

Challenge-led innovation

Technology demonstrations

Commercialisation support

End-to-end project management

Strategic marketing

BENEFITS

FIS360's open innovation approach empowers organisations to leverage independent ideas, reduce R&D costs, and mitigate risks while achieving transformative results that drive competitive advantage and sustainable growth.

CUSTOMER FEEDBACK

"FIS360 have built a thriving community of innovators, and work tirelessly with them and challenge owners to develop world-class solutions to complex challenges."

FIS 360
INNOVATION DELIVERED

TECHNOLOGY COMMERCIALISATION

We help businesses and innovators **bridge the gap** between ideas and real-world application, helping to shape strategies, secure funding and investment, and bring technologies to market successfully.

We have provided commercialisation support for hundreds of technology projects, nationally and internationally, leveraging millions of pounds in early-stage funding.

FEATURES

IP protection
guidance

Investment and
funding advice

Technology
benchmarking

Market
research

Strategy
development

Identifying
licensing deals

BENEFITS

Partner with FIS360 to commercialise your technology, access new sectors, unlock new revenue streams, maximise your innovation's ROI, and grow your reputation.

CUSTOMER FEEDBACK

"FIS360's focus on business development and sustainability means that your technology stands the best chance of having a genuine impact and long-term commercial success."

INNOVATION TRAINING & CULTURE

From nurturing individual talent to **embedding organisation-wide strategies**, we can help shape your innovation outlook with our training and mentoring programmes.

We have delivered tailored entrepreneurship and intrapreneurship training programmes to start-ups, spin-outs, SMEs, large multi-national corporates, and academic researchers.

FEATURES

Online or in-person

Tailored course content

Interactive workshops

One-to-one mentoring

Business fundamentals and more

Expert seminars

BENEFITS

Access FIS360's specialist knowledge, learn how to build your business proposition, shape strategies for growth and build a strong innovation culture that will ensure your company stays ahead in dynamic, regulated industries.

CUSTOMER FEEDBACK

"FIS360 designs innovation training with careful consideration for remit, organisational structure and processes, using their experience and programme design know-how to deliver a training programme like no other."

INNOVATION NETWORKING & EVENTS

From online challenge workshops and in-person innovation sprints to cutting-edge technology showcases, our networking events create a focal point for collaboration and growth for innovators, businesses and stakeholders from diverse sectors around the world.

With over 50 events hosted globally, reaching thousands of participants across hundreds of organisations, we connect industries and foster partnerships to address key challenges.

ACTUATE360: THE INNOVATION MATCHMAKING SERVICE

Actuate360 is FIS360's bespoke matchmaking service, designed to connect innovators with the right collaborators.

By analysing your needs, we identify potential connections from our extensive global network - including universities and research organisations, industry bodies, investors and regulators - helping you to forge impactful relationships that drive innovation and growth.
